You've got the craft bug, but the bags of beads, skeins of yarn and macramé kits you bought at AC Moore leave you feeling somewhat inept. Maybe you just need some guidance. Check out Fill-a-Pillow where you can custom create your own pillow using unique fabrics and original trimmings. Founded by Michael and Monica Miraglilo, Fill-a-Pillow offers Florentine-Inspired swirls, modern florals, animal prints and more with bead, button and crystal trims. All designed to help you discover endless ways of enhancing your décor and expressing your style. Just choose a form, fabric and trimming and Fill-a-Pillow's seamstress will sew it up. Finally, a craft project that leaves you feeling fulfilled.
